#### 09. MELBOURNE RESIDENCE

PR. ELENBERG FRASER  
PH. PETER CLARKE

The interior concept for this two-level penthouse residence addition, hovering above an Edwardian building, draws upon Friedrich Schinkel's early definitions of 'House' and the riddled stories of King Solomon and Queen Sheba. The layout features a fluid organisation of rooms, integrated private courtyards and exquisite detailing.

#### 12. INTERNATIONAL LODGE APARTMENT

PR. IAN MOORE ARCHITECTS  
PH. IAIN D MACKENZIE

Combining a single-bedroom apartment and a studio to form a two-bedroom apartment (the only one in the block), the studio apartment has been reconfigured to form the main bedroom with en suite bathroom and dressing room.

#### 15. LAKE WENDOUREE HOUSE

PR. JOHN WARDLE ARCHITECTS  
PH. PETER BENNETTS

In homage to the beautiful gardens of Ballarat, this residence comprises a series of pavilions located within a landscape of varied garden types - formal, rambling, kitchen and courtyard. Each pavilion has a unique material and spatial quality, accentuated by the immersive relationship to its adjacent garden.

#### 10. HAWTHORN EAST RESIDENCE

PR. FIONA LYNCH OFFICE  
PH. BROOKE HOLM

Curious pops that play on the 80s form was the big idea for this home. A refreshed, updated aesthetic is created through contrasting paint and a gentle layering of stone, copper, perforated metal and timber veneer. Playful colours add a touch of the unexpected, bringing this house back to life.

#### 13. SOUTHERN HIGHLANDS HOUSE

PR. INTERMODE  
PH. JUSTIN ALEXANDER

The central concept behind the design was to create a transparent pavilion that hovered above the landscape. Designed to blend seamlessly, the internal and external spaces are conceived as one. This frames and maximises views of the surrounding landscape while creating a sense of retreat and calmness within the interior.

#### 16. THE HORIZON APARTMENT

PR. MA ARCHITECTS WITH MARIA DANOS  
PH. SHANNON MCGRATH

Capturing a panoramic view to the city, the Horizon Apartment nods gently to the geometry and rhythm of the building's architecture through articulated volume, spatial arrangement and expression of materiality. Manipulation of texture and colour tempers unfiltered light during the day and, with considered lighting strategies, creates drama at night.

#### 11. 700 HAUS

PR. GLOW DESIGN GROUP  
PH. PETER CLARKE

This project called for the use of local products, comfort and sustainability. The land presents beautiful aspects that needed to be exploited in the design while also designing to aspect. The finished house utilises these views in various directions while remaining thermally very comfortable and being designed to be part of the rural setting.

#### 14. MOONLIGHT CABIN

PR. JACKSON CLEMENTS BURROWS  
PH. JEREMY WEIHRAUCH

Located on a windswept coast line, Moonlight Cabin is a place of retreat that engages with the landscape's ephemeral conditions. Ostensibly a 60-square metre shelter that explores the boundaries of how small is too small, challenging conventional notions of what we really need in our lives.
